

ARDO Electronic Training Aid Survey Statistics as of 17/05/20

Total respondents: 776

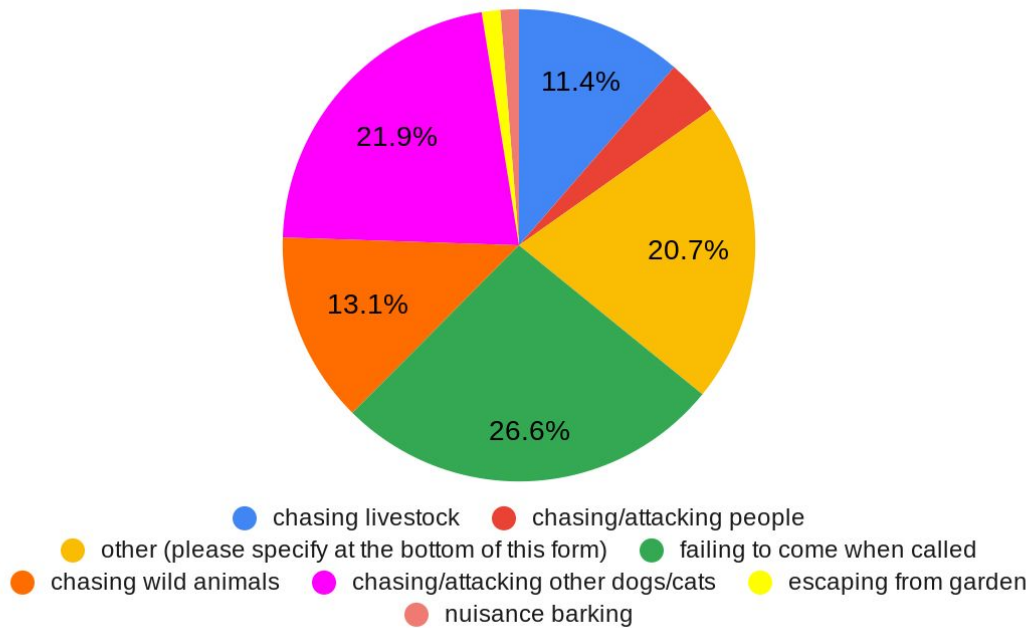

Total removed : 3 (these respondents had never used an electronic collar and are therefore not eligible for inclusion in the survey)

NB: of those that reported negative effects, one person appears to have answered this question incorrectly, and the other admits not reading any instructions and using the collar in an unsuitable situation.

Where did the dogs/cats come from?

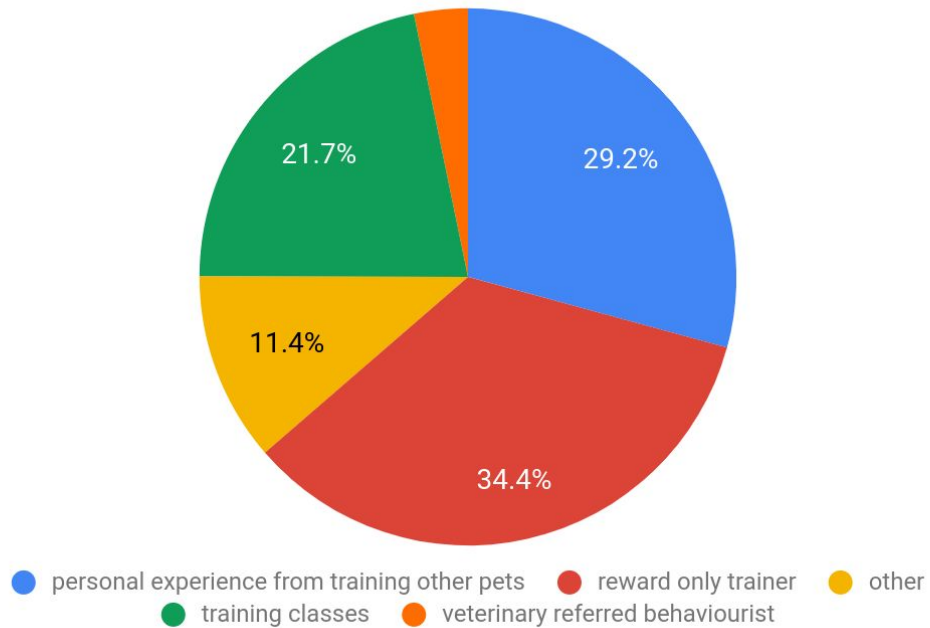

Of the pets acquired from rescue, what were the reasons for using an electronic collar?

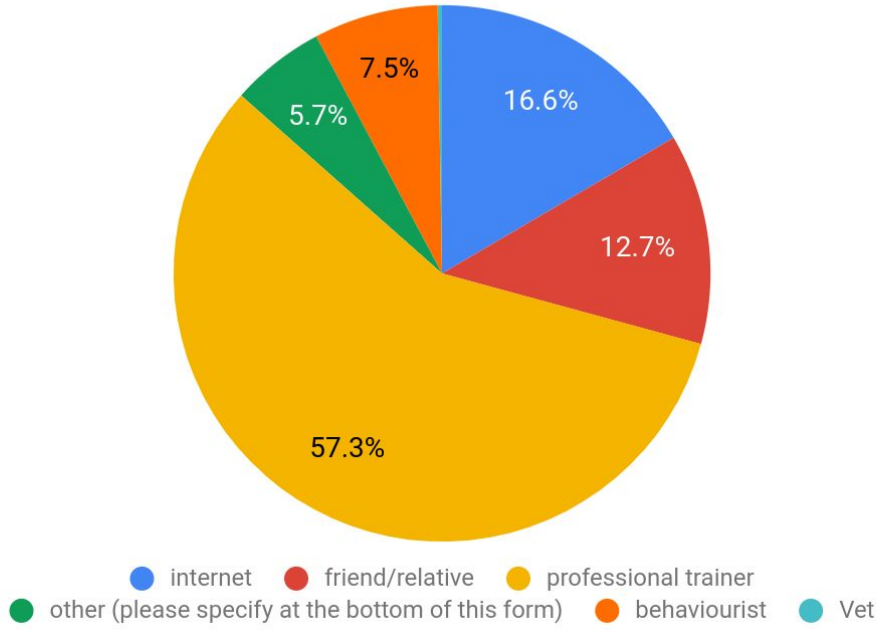

What behaviour or problem was the electronic training collar intended to resolve?

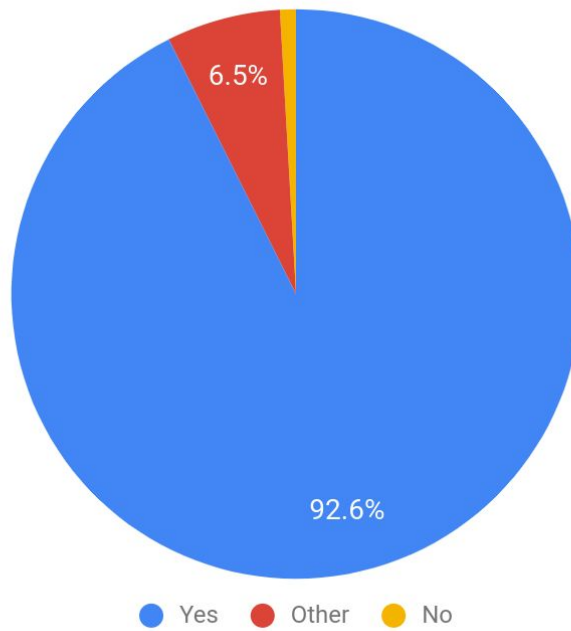

What had you tried prior to obtaining an electric training collar?

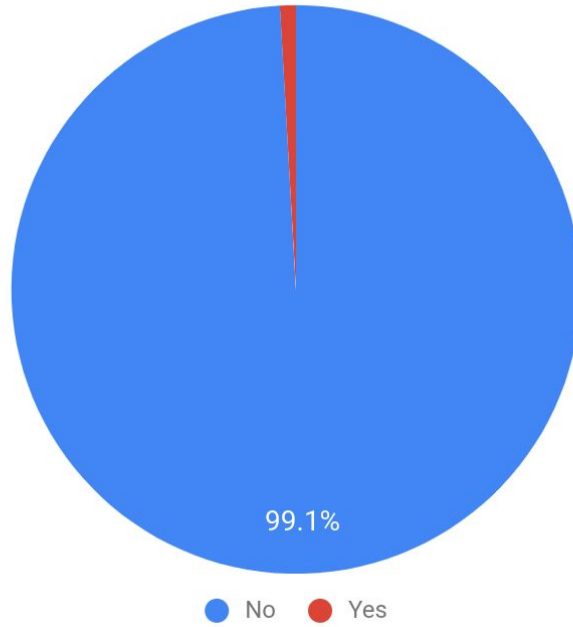

How did you hear about electronic collars?

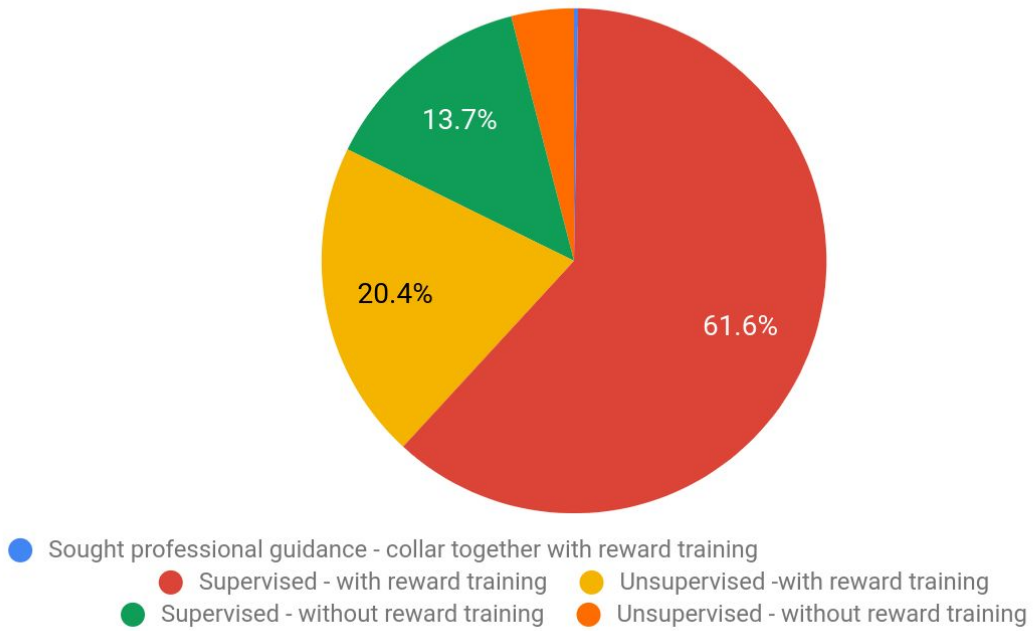

Did training with the collar solve the problem?

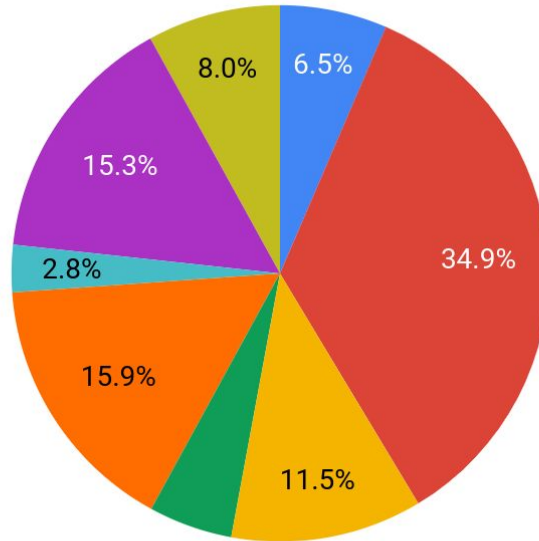

Were there any negative effects?

How did you use your electronic training collar (excludes no-bark)

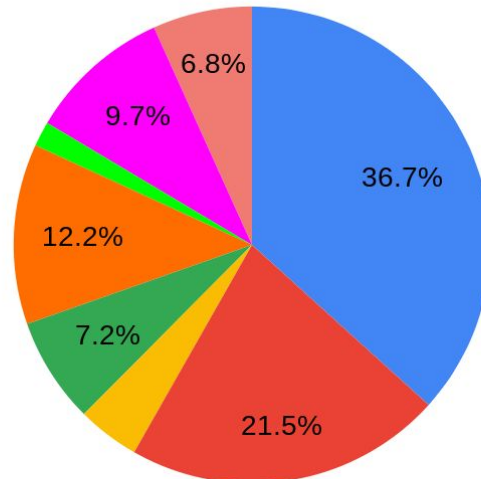

What do you think would have happened to your pet had you not used the electronic collar?

- killed/worried livestock
- life on a lead or penned in
- other
- rehomed
- put to sleep
- returned to rescue association
- killed on the road
- shot by farmer

Of the pets acquired from a rescue organisation, what do you think would have happened to your pet had you not used the electronic collar?

- life on a lead or penned in
- put to sleep
- killed/worried livestock
- returned to rescue association
- killed on the road
- rehomed
- other
- shot by farmer
